## PROFILE SUMMARY

- **Led PAN-India End-to-End Prepaid Consolidation for Vodafone India**, successfully migrating **100+ crore prepaid subscribers** with **zero business disruption**, overseeing migration strategy, dry runs, cutover planning, risk mitigation, and cross-functional execution
- **Delivered large-scale PAN-India Oracle to Exadata migration** for Vodafone Prepaid platforms, handling **100+ crore subscriber data**, significantly improving system performance, scalability, and operational stability.
- **Spearheaded enterprise-grade Oracle platform consolidation** across nationwide prepaid systems, ensuring data integrity, regulatory compliance, and seamless business continuity during high-risk migration windows.
- **Played a key role in PAN-India Vodafone-Idea CRM consolidation**, aligning multiple legacy systems into a unified architecture through strong stakeholder coordination, requirement analysis, and technical governance.
- **Led cloud data migration initiatives for European telecom clients (O2 UK and Odido)**, migrating complex legacy data platforms to modern **cloud-native architectures on AWS**, leveraging **NiFi, Kubernetes, DevOps pipelines**, and automation to enable scalability and faster delivery.

## CORE COMPETENCIES

- E2E Data/ Cloud Migration Strategy Planning and Execution
- Team Management & Leadership
- Cross-functional Collaboration
- Dry Runs and Cut Over Planning
- Requirement Gathering/ Analysis
- Business Continuity Planning
- Performance Optimization
- Risk Mitigation
- Risk /Issue Management
- Stakeholder /Vendor Management
- Technical Leadership
- CRM, Billing, Amdocs, Netcracker, UPSS, Seibel

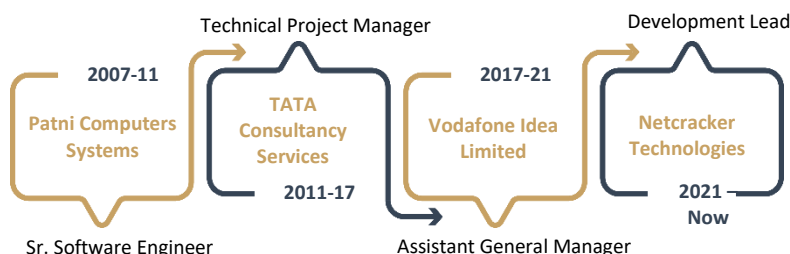

## TECHNICAL SKILLS

**Cloud Technologies:** AWS, Docker, DevOps, Kubernetes, Apache NiFi

**Programming & Automation:** Oracle, Unix, PLSQL, Postgres, VBA, Python, Streamlit

**Tools & DevOps:** Git, Jenkins, CI/CD, JIRA

## CAREER TIMELINE

## CERTIFICATIONS

- AWS Certified Practitioner
- AWS Certified Developer Associate

## ACHIEVEMENTS

- Achieved a consistent 5 in performance ratings (Outstanding/ Top Performer) for 2012, 2013, 2014, 2015, and 2016.
- Awarded the On-the-Spot Award for timely issue resolution, preventing potential revenue loss to the client in 2014.
- Won Star of the Month Award in December 2012 for automation in Ops Scripts, reducing recon activity from 15 hours to 30 minutes.
- Honored with Valuable Contribution Award in Q1 2009 for automating status reporting, reducing time from 5 hours to 2 minutes.
- Maintained a consistent 5 Rating (Outstanding) in 2009 and 2010.

## WORK EXPERIENCE

### Netcracker Technologies, Pune | February 2021 Onwards as **Development Lead**

- Spearheading Odido Netherlands Migration Project, driving cloud migration and architectural design for a telecom network supporting millions of users.
- Leading a team of cloud engineers in end-to-end migration while ensuring minimal downtime and enhanced performance.
- Defining cloud architecture solutions utilizing Kubernetes for scalable container orchestration and Apache NiFi for real-time data processing.
- Architecting secure, optimized API services and leveraging Ingress for streamlined traffic management between microservices.
- Implementing cloud cost-optimization frameworks, ensuring availability, scalability, and alignment with financial objectives to maximize value.

#### **Highlights:**

- Implemented innovative cloud architecture solutions that resulted in a reduction in operational costs while enhancing service delivery.
- Introduced a new data processing framework that enhanced data throughput, significantly improving overall system performance.

### Vodafone Idea Limited, Pune | September 2017 – January 2021 as **Assistant General Manager**

- Led projects for Vodafone Idea partner organizations, coordinating with a wide network of stakeholders to ensure project alignment, timely signoffs, and deployment schedules while driving stakeholder readiness and escalation management through status reviews.
- Strategized technology transformation efforts, spearheading business and operational enhancements, as well as formulating executable strategies for digital and CRM transformation across various business units.
- Guided user engagement and readiness by addressing functional understanding gaps during UAT testing, ensuring a clear alignment between end-user requirements and project objectives.
- Orchestrated activities including rollout tracking, data migration preparation, risk management, and cutover planning, focusing on minimizing business impact and ensuring data accuracy via defect closure and DM BO validation improvements.
- Enabled CRM & infrastructure consolidations, driving CRM migration to streamline billing processes and infrastructure consolidation for application efficiency.

#### **Highlights:**

- Supervised VODAFONEIDEA CRM transformation and upgrade program, managing a team of 50 members for implementation; enhanced the rollout from 2 circles every 3 months to 18 circles simultaneously.
- Instrumental in developing a zero downtime migration strategy, cut-over, and business continuity plan while enhancing time-consuming activities through automation using IT skills, including PL/SQL, UNIX, and VBA.
- Oversaw partner performance, ensuring 95% compliance with timelines, consistently meeting project milestones with minimal delays.
- Significant contributions to high-impact projects, including:
  - SCRM rollout for 18 postpaid circles by Q3 2019
  - Digital CRM transformation and billing integration
  - Automation for accelerated R3 Sumeru rollout activities

### TATA Consultancy Services, Pune | October 2011 – August 2017 | **Last: Technical Project Manager**

**Growth Path:** 2011 – 2015 as **Assistant Consultant** | 2015 – 2017 as **Technical Project Manager**

#### **Highlights:**

- Elevated revenue and customer experience by designing and implementing robust reconciliation scripts for prepaid recharges.
  - Optimized the Prepaid CRM Feed Process, decreasing replication delay from 5 hours to 10 minutes.
- Led technology enhancement for Vodafone's prepaid application, driving migration of 70 TB of high-value data to EXA-Data platform.
- Spearheaded technology migration and upgrade initiatives as Tech Lead and Solution Architect for a large-scale Telecom Domain Migration Project, driving critical data migration with minimal downtime for seamless operational continuity.
- Reduced operational timeframes through automation of essential database processes, optimizing task durations to under 30 minutes.
- Developed and automated MIS reporting and VIP messaging systems, improving decision-making speed and service quality.

### Patni Computers Systems, Pune | March 2007 – September 2011 as **Senior Software Engineer**

- Contributed to the Manufacturing Domain Support Project as well as facilitating the automation of various manual processes.
- Received management as well as client appreciations for the same.

 EDUCATION

Bachelor of Engineering in Electronics and Telecommunication | Pt. Ravi Shankar University, SSCET Bhilai | 2002 – 2006
