PROFESSIONAL SUMMARY

Dynamic **Technical Project Manager** with **18 years of experience** leading large-scale **data migration, digital transformation, and cloud modernization** programs across **Telecom and BFSI domains**. Proven expertise in driving complex multi-vendor initiatives, aligning business and technology objectives, and delivering mission-critical projects on time and within budget. Adept at managing **cross-functional global teams**, cloud infrastructure design, and data-driven transformation using **AWS, Kubernetes, and DevOps frameworks**. Passionate about enabling enterprise-scale agility through governance, automation, and stakeholder alignment.

TECHNICAL EXPERTISE

Category	Skills
Program & Project Management	End-to-end delivery, stakeholder management, budgeting, Agile/Scrum
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda), Kubernetes, Jenkins, Terraform, CI/CD pipelines
Data Transformation	Large-scale CRM/Billing migrations, Data Lake design, Oracle, PostgreSQL
Leadership & Governance	Cross-functional team leadership, vendor coordination, PMO reporting
Monitoring & Observability	Grafana, CloudWatch, ELK, Superset BI
Domains	Enterprise Billing Solutions, Large-Scale CRM Systems, Financial Services (Policy Data), High-Volume Transactional Systems

PROFESSIONAL EXPERIENCE

Development Lead | Netcracker Technologies, Pune (February 2021 – Present)

- **Leading end-to-end** enterprise billing cloud migration **for a European telecom operator (Odido, NL)**.
- **Orchestrated technical delivery across** multi-functional engineering, testing, and DevOps teams.
- **Designed cloud-native solutions using** AWS, Kubernetes, and NiFi, **ensuring scalability and security**.
- **Delivered 15% cost optimization via Kubernetes workload management and automation**.
- **Set up project dashboards and KPIs** for real-time tracking and governance, **improving visibility across leadership**

Assistant General Manager/Program Manager | Vodafone Idea Limited, Pune (September 2017 – February 2021)

- **Directed one of India's largest** CRM transformation programs **involving migration of 100M+ customer records**.
- **Owned the full lifecycle—from business case to go-live—across technology, business, and vendor teams**.
- **Implemented zero-downtime migration and business continuity frameworks, ensuring uninterrupted services**.
- **Automated key migration activities, achieving a 40% reduction in execution time and improved reconciliation accuracy**.

Associate Consultant/Technical Project Manager | Tata Consultancy Services, Pune (August 2015 – August 2017)

- **Delivered a 70 TB data migration to Oracle Exadata for a leading telecom client, ensuring system performance uplift**.
- **Defined project charters, schedules, and communication plans in alignment with stakeholder expectations**.
- **Managed a cross-regional technical team and coordinated with clients for design approvals and UAT sign-offs**.

Assistant Consultant/Technical Lead | Tata Consultancy Services, Pune (October 2011 – July 2015)

- **Data Warehousing (Key Project): Served as Technical Lead for the Aviva Ireland Policies Data Warehouse. Designed**

the dimensional data model and technically managed the loading of facts and dimension tables in Oracle DW using **DataStage** as the primary ETL tool.

- **Data Migration & Optimization:** Executed complex data migration tasks for business-critical applications with a focus on data quality and minimal service interruption.

KEY PROJECTS

Project Focus	Technologies & Tools	Business Impact
Enterprise Billing Cloud Migration (Netcracker)	Kubernetes, NiFi, Grafana, PostgreSQL, AWS	Designed platform for minimal downtime and managed real-time data streams during cutover.
High-Volume CRM Transformation (Vodafone Idea)	Oracle, Siebel, PL/SQL, UNIX	Led and executed zero-downtime migration of 100M+ customer records , ensuring business continuity and data integrity.
Financial Data Warehouse (TCS - Aviva)	Oracle, DataStage, Dimensional Modelling	Architected and managed the build and loading of a regulatory-compliant data warehouse used for policy analytics and reporting.

PROFESSIONAL CERTIFICATIONS

- **AWS Certified Practitioner** (Completed)
- **AWS Certified Solutions Architect – Associate** (In Progress)

EDUCATION

Bachelor of Engineering in Electronics and Telecommunication
Pt Ravi Shankar University, SSCET Bhilai | 2002 – 2006| 72%

Key Achievements

- **Successfully delivered** zero-downtime CRM and Billing migrations **across multi-TB datasets**.
- **Mentored global delivery teams on Agile-based execution and data governance**.
- **Recognized by leadership for excellence in** cross-domain technical program delivery.

Career Objective

To contribute as a **Technical Project Manager** in driving **cloud and data-driven transformation programs** at IT by combining hands-on technical depth with strong delivery and stakeholder management.
